## Mayank Trivedi,

CEO at myOnsite healthcare LLC.

The healthcare delivery system is changing; the future will be to provide care for patients by addressing their healthcare needs from a new radical "POINT-OF-CARE" – the comfort of their home.

myOnsite provides a one-stop solution for all types of mobile phlebotomy needs nationwide. We are backed by a proprietary cloud-based IT platform that enables a paperless workflow from initial orders to final results. We are continually adding to our available services, such as clinical research, mobile radiology, and COVID Testing.

For over 16 years, we have demonstrated the ability to improve access to health care. We have seen that this has a positive impact. Our passionate staff has remained committed to ensuring our patient's safety and comfort. Because of this, we have achieved a 99+% Customer Satisfaction rating. We are excited as we continue to grow and will always strive to provide our patients and customers with outstanding service. As a technology-based healthcare company, we are agile enough to continue to evolve with the demands of modern healthcare. As we have all witnessed, healthcare procedures and norms can change very rapidly in a global world. With the acceptance of telemedicine, the trends show that we will continue to see technology and mobile medicine become more widely used. We are uniquely poised for this market, having a proven history of mobile technology and care.

We look forward to helping to move healthcare into the future.
